EMPLOYMENT

Art Director

Jan 2025 - Present

RMS International Inc., North Andover, MA

- Manage and creatively lead a team of designers specializing in childrens products for a variety of toy categories from initial concept through production.
- Collaborate with Creative Director, License Brand Manager, and Sales Managers on developing and marketing new products
- Provide creative leadership and mentorship to designers, fostering collaboration, innovation, and effective problem-solving.
- Balance creative ambition with manufacturing, budget, timeline, and production constraints.
- Research and incorporate market trends within the industry and beyond to apply to product development.
- Estimate, prioritize, and enforce timelines across multiple ongoing projects to best complete with efficiency and accuracy.
- Exercise acute attention to detail during final check on final artwork, prototypes, and production.

Lead Graphic Designer

Mar 2023 - Jan 2025

RMS International Inc., North Andover, MA

- Guide my team in conceptualizing and developing games from design to production, give creative direction and critique team members work, focus on ensuring that consumers will understand the game play.
- Manage a team of designers to complete multiple tasks simultaneously in a very fast-paced environment and adjusting work assignments as priorities change.
- Create visually appealing artwork for products spanning from a single item to entire product ranges.
- Work closely with the Creative Director and Sales team to strategize new product concepts for major customers.
- Support Sales team by compiling products into catalogs and attending meetings with customers.
- Coordinate with Purchasing and Compliance teams to fulfill orders within cost parameters.

Graphic Designer

Oct 2018 - Mar 2023

RMS International Inc., North Andover, MA

- Member of creative team focusing on developing concepts into products with focus on games, toys, crafts, and STEM activities.
- Design product (game play, game contents, etc.) and its packaging while adhering to brand and licensing style guides.
- Solve packaging design issues, ensure compliance with legal requirements (warning and safety labels in multiple languages) while reducing impact on the artwork.
- Photograph products for package artwork and website content.
- Produce physical and digital mockups for presentations to prospective customers.
- Prepare package artwork, specifications, and technical packaging for factory production.
